NUMBER 49

FOUR ARE SEEN AS CANDIDATES IN SHERIFF RACE

Kennedy, Froelich and Ahlstrom Are Regarded as Sure Starters

Political rumblings and rumors of the 1938 campaign all ready are beginning to be heard in Lake county although the election is many months in the future. Several prospective candidates for sheriff and county clerk got their names in print in Friday's edition of the Waukegan Times in a preview of the situation as it appears at present to political railbirds of Lake county.

Regarded as certain candidates for the Republican nomination for sheriff, according to the Times, are Thomas E. Kennedy, chief deputy sheriff; John E. Froelich, who was recently relieved of his duties as financial deputy in the sheriff's office; and Edward Ahlstrom, a former sheriff.

None of the possible candidates for the office has officially declared his intention to run, but the aspirations of all are well known and are the subject of much discussion in political circles.

Democrats Look to Tyrrell
On the Democratic side there is but one possible candidate mentioned—Patrolman Bart Tyrrell of the Waukegan police department, who came within 127 of being elected two years ago. While Tyrrell has not indicated his desire to run for the office, it is regarded as certain that much pressure will be brought to bear on him by his Democratic brethren to induce him to become the party's candidate. He is regarded as the logical Democratic choice.

The candidacy of Chief Deputy Kennedy has been a foregone conclusion for many months, says the Times. Kennedy is a police executive of wide experience and no doubt he will have full support of the regular Republican organization and the help of Sheriff Lawrence Doolittle who is quite some campaigner.

Although the intention of Froelich to be a candidate for the office has been known to his friends for several months, it became more apparent when Edward Torquist, a constable, was named two weeks ago to succeed him in the sheriff's office.

Mention Stratton for Clerk
Prominent among the possible entrants for the office of county clerk is William J. Stratton, former secretary of state, and for many years regarded as a leader in the Republican ranks. Also regarded as possible entrants for the Republican nomination for county clerk are J. F. Bidinger, former mayor of Waukegan, John F. McDonald, and Lew Hendee, former county clerk.

Indications are that County Clerk Russ Alford will be unopposed for the Democratic nomination.

ENROLLMENT PERIOD IN CCC EXTENDED TO LAST DAY OF MONTH

The final date of the CCC enrollment period has been extended from July 20 to July 31, it was announced this week by Martha Donaldson, assistant certification agent for the local district.

Boys and young men between the ages of 17 and 23 years inclusive who are in need of employment are permitted to enroll this month, according to the Illinois Emergency Relief Commission, which has charge of CCC certifications in this state.

Under previous federal regulations, enrollment was limited to members of families receiving public assistance. Present legislation, however, opens this service to other young men, if they need this employment "to provide themselves or their dependents with a proper and adequate standard of living."

Selection may be made also of single men without dependents when priority groups have not filled the county quotas. These young men, otherwise fully qualified, may be selected upon arrangements to establish CCC deposits of an amount identical with that normally made to dependents (\$25 per month).

City Briefs

Mrs. John Brogan spent Thursday in Chicago.
Be sure and buy a ticket for the Antioch Woman's Club card party and dessert luncheon to be held at St. Peter's Hall, Tuesday, August 17th.
Coming—the event of the season! Annual card party at St. Peter's Hall, Thursday afternoon, Aug. 12.

Ernest Glen is New Commander of Antioch American Legion Post

Warren Edwards Vice Commander; Select Delegates to State Meet

Ernest Glenn, former U. S. Marine, was elected commander of the Antioch American Legion post at the annual election of officers last Thursday night. He succeeds James L. Waters, retiring commander.

Others elected at the meeting were: Warren Edwards, senior vice-commander; Ernest Heg, Jr., junior vice-commander; W. S. Phillips, finance officer; Roger Miller, sergeant-at-arms; Frank Barber, chaplain, and Walter Hills, Bogardus officer.

Hills will serve with the new commander and the adjutant as delegates to the Tenth district council. Alternate delegates selected were Dr. L. John Zimmerman, Paul Chase and W. S. Phillips.

Glenn is delegate and Paul Chase alternate delegate to the state convention. The Antioch post will have its own room at the convention which will be held in Springfield.

DOUBLE WINDUP AT ROUND LAKE MAT SHOW FRIDAY

White Imports "Bad Boy" Brown to Tame "Wild Man" Rudy Kay

The roughest and wildest wrestling match since Lou Plummer whipped Dick Raines at Round Lake three years ago is expected to take place Friday night in the Round Lake Haunted House Open-air Sports Arena when Rudy Kay, Chicago Wildman and reformed baker-boy, takes holds with Bad-Boy Brown, famous wrestling tough guy, in one match of a double main event featuring an all-star card of five matches.

Kay, a consistent winner in the Round Lake bowl, has become the most hated matman of the season to appear here, and "Bad Boy" Brown, highly touted toughy from the south, has been imported to these parts from the south, to give Rudy a good whipping to the satisfaction of local sport lovers. Whether he will be able to do it will be determined Friday night.

Seeks Light Heavyweight Crown

In the other feature attraction billed as a double main event Frankie Talaber, sensational young professional contender for honors in the light heavyweight division, wrestles Pete Sherman, mighty Texas ace. This bout has special importance attached since it is being counted in the sectional play-offs of the national professional tournament now under way to determine an official light-heavyweight world's champion.

One of the preliminary matches on the program should have a great deal of local interest attached and home towners for each of the wrestlers will be at the ringside rooting for their champion. Charley Petersen, veteran matman of note and Pistakee Bay yachtsman, will seek to tame his Fox Lake rival for local wrestling honors, Al Williams, in a thirty minute time limit bout. Both Petersen and Williams are popular and should draw many fans from the lake district.

Zorsey in Mat Debut

Another match that should arouse considerable interest brings the colorful Oklahoma star, Al Perry to grips with Jack Claybourn, English mat star, successfully campaigning in this country. The opening contest on the card features a North Chicago lad in his professional debut, George Zorsey, a 190 pounder. He will take on a tough customer as his first assignment is Buck O'Roark, rough and ready Irishman. Zorsey is well known in North Chicago and Waukegan for his athletic ability on the mats and was given a spot on the card in answer to his challenge to meet any of the pros. Popular prices prevail with tickets selling at fifty cents and one dollar plus tax with ladies free with escorts in ringside. In case of rain, show will be held Saturday.

Farm Bureau Team Tied With DeKalb For First Place

Last Saturday afternoon, Lake County defeated McHenry by a score of 9 to 6. This put them in a tie for the District Championship with DeKalb County, who defeated Boone County by a score of 2 to 1.
Robert Madison of Lake Villa struck out 10 men while Burgmeister of McHenry struck out 5.

ANTIOCH FAIR OFFICIALS PLAN 1937 EXHIBITION

County's Only State Aid Fair to Open Here August 26

For the second time since its inception 14 years ago the Antioch County Fair will be staged before Labor Day week-end. It was formerly held in October. This year's exhibition will be held August 26, 27 and 28. By advancing the date officials of the fair association believe they will avoid the colder weather of early fall, which had a stifling effect on the attendance, and that the earlier date will attract a great number of summer vacationists, many of whom have property interests in this locality.

A combined premium list of about \$3,000 will be offered to exhibitors again this year, according to Charles Paddock, secretary. State aid in the payment of premiums has been obtained since 1930. The largest awards this year, as in former years, will be for the poultry department, the Antioch exhibition being recognized as one of the leading poultry exhibitions in northern Illinois. The present fair, which is Lake county's only state aid fair, is the outgrowth of the poultry show which was started in 1924. Other departments including agricultural products, floriculture, culinary, domestic arts, fine arts, education and dairy cattle and live stock were added from year to year.

Present officers of the Fair Association are D. H. Minto, president; H. A. Tillotson, vice president; Bert Edwards, treasurer; Chas. Paddock, secretary; and Emmet King, director.

In addition to the large number of exhibits expected this year, there will be the usual amusement attractions including rides, games of skill, free shows, concerts, and probably radio entertainers. The fair will be held as usual at the Antioch high school grounds and will be open each day and evening, August 26, 27 and 28.

TAXPAYERS MAY GET REFUND ON PENALTIES

New Law Affecting Delinquent Penalties Effective July 3

Lake county taxpayers who have paid their personal property taxes for the years 1928, 1929 and 1930 are entitled to a refund of the assessed penalty of 1 per cent a month, under the provisions of a new state law which became effective July 3, according to Justice of the Peace Raymond E. Sorenson, who has handled many of the delinquent tax cases in his court. Sorenson says he has conferred with Assistant State's Attorney Okel Fugua, and under the new law taxpayers are entitled to a refund of penalties they have paid for the years 1928, 1929 and part of 1930.

GRASSHOPPERS AND ARMY WORMS SWARM OVER LAKE COUNTY

Lake County is experiencing one of the worst outbreaks of grasshoppers and army worms that they have had for a good many years.

H. C. Gilkerson, Farm Adviser, has secured an allotment of Government White Arsenic for use in grasshopper control. This poison can be secured at the Farm Bureau office at a very nominal charge. This charge is to cover the handling, only. The directions for mixing the poison with bran and applying it will be given at the time of securing the white arsenic. The same kind of bait is used for army worms as well as grasshoppers except that it is applied at different times of day.

Co-operate on Party

Plans for St. Peter's Excellent co-operation among parishioners and summer visitors is reported by committee members in charge of the annual summer card party to be held at St. Peter's hall, Thursday, August 12. Widespread interest and diligent work on the part of those interested indicate that this year's party will be the outstanding event of the year in St. Peter's parish.

WEATHER FORECAST—STORM BREWING

ANTIOCH DRUG CLERK "CAUGHT WITH GOODS"

Thefts at King's Drug Store Land Joseph Stubbs in Jail

Employment at King's drug store brought grief to Joseph A. Stubbs, 44, of 1355 Walnut street, Waukegan, and an end to one of the most unusual larceny partnerships ever uncovered in Lake county.

Stubbs and his companion in crime, one Olaf Edman, 24, of Libertyville, were taken into custody early this week by Deputies Stanley Christian and Joseph Welch, following uncovering of thefts of merchandise from the local drug store. Having what he believed to be a safe cache at the King store, Stubbs from time to time deposited various articles of merchandise and at each opportunity removed them to his home in Waukegan. When it was noticed that merchandise was disappearing with regularity, Bob King set a watch on Stubbs and located the hidden merchandise. He notified the sheriff's office and Stubbs' arrest followed Sunday night when the stolen goods were found in his possession.

Partnership in Crime
Stubbs and Edman, deputies learned, had formed their partnership two years ago when Stubbs was employed in the Lovell drug store in Libertyville and Edman was in the clothing store of C. O. Carlson, Libertyville village clerk. The two, it is charged, traded regularly in merchandise, Edman getting drugs, sundries, etc., without charge, and Stubbs also was on the "free" list at the Lovell store. The same procedure was followed when Stubbs was employed at the Druce drug store in Waukegan, according to information obtained by the sheriff's deputies.

On May 1, this year Stubbs left the Druce store and came to work for King's in Antioch. While here he is alleged to have informed his employer that he had a friend who was going out of the drug business and that he could buy stock at cut rates. He was given a check for \$90 for merchandise supposedly purchased from the firm that was going out of business but the check never carried the endorsement of the firm Stubbs said he represented. Before coming to Lake county Stubbs operated a drug store on Lincoln avenue in Chicago. It is believed that the thefts of Edman and Stubbs over a period of two years totals over \$15,000.

Stubbs was released on a \$6,000 bond approved by Justice of the Peace Harry Hoyt.

LAKE VILLA DAYS SET FOR AUG. 6, 7, 8

Lake Villa Days, sponsored by the Lake Villa Fire department, this year will be a three-day event to be held August 6, 7 and 8 in the village park on the shore of Cedar Lake.

Advertising placards of the event announce that there will be free dancing, games, rides, water fights, races and fun for all. A feature of the program will be a baseball game between the old rivals, Birk's Beers and Lake Villa.

Lake Villa days sponsored each year by the firemen have long been an attraction to residents of the region and also to vacationists. The proceeds will be used for maintaining the fire department.

ED. VOS ELECTED PRESIDENT OF ANTIOCH LIONS

Charter Members Name Officers at Organization Meeting

Edmund F. Vos, Antioch lumberman, was elected president of the Antioch Lions club at the organization meeting of charter members at Hotel Golden Friday at the noonday luncheon called by Marvin E. Affeld, organizer and special representative of Lions International.

Other officers named were: W. I. Scott, 1st vice president; H. B. Gaston, 2nd vice; Robt. C. Abt, 3rd vice, and Dr. D. N. Deering, secretary and treasurer. J. B. Fields was elected tailwister of the new group, and Dr. L. John Zimmerman was named Lion tamer. E. W. Rentner, W. A. Rosing, R. G. Holtz, and Irving Elms comprise the board of directors for the first year.

To Hold Charter Night
With R. G. "Bud" Holtz as chairman the Lions plan a charter night meeting in the near future. President Vos also named Robt. Abt as chairman of the constitution and by-laws committee, H. B. Gaston finance, and S. B. Nelson, membership, to assist in completing the local organization.

Representative Affeld made it plain to the group present at the dinner that it had been impossible for him to see other representative business and professional men of Antioch and left it to the local membership committee to complete the roster of charter members. Twenty-one had signed up for membership at the time of the meeting Friday.

A delegation of some 15 or more members from the Waukegan Lions Club will attend and take charge of the first meeting of the local group scheduled to be held at Bill Karpen's Round-Up Monday night at 7:30.

The newly formed Lions Club will in nowise affect the Antioch Men's Civic club, essentially a social organization, which has been functioning in accordance with its adopted by-laws for several years. Samuel Pollock is president.

TWO MORE DROWNED IN COUNTY THURSDAY

Colored Lad Lost in Lake Michigan; Chicago Boy in Fox Lake

Two drownings during the toll week brought the county death total to 14 for this season, exceeding the number of auto deaths for the same period by three. Both drownings occurred last Thursday. Both were young boys, one losing his life in Lake Michigan and the other in Fox Lake.

Edwin Glod, a 17 year old Chicago youth, of 1009 N. Francisco avenue, became the 13th drowning victim when he lost his life in Fox Lake a short time after he and his friends had rented a cottage on the lake. He had dived from a boat and failed to return to the surface, it was learned at the inquest. His body had been recovered by a bathor who was near the scene of the fatality.

Colored Boy Drowned

Herman Sledge, a 14-year-old colored boy of Waukegan was drowned Thursday at 11 o'clock when he fell from a raft on which he and some companions were riding 500 feet from shore off Gulf street. According to his companions, Sledge was not a good swimmer and the waves caused him to sink from exhaustion while trying to swim to shore.

Railway Employees Sponsor Picnic Sun.

The largest gathering of railway employees ever assembled in this locality is expected Sunday when E. J. & E. Employees Club of Waukegan stage their fifth annual picnic at McKeon's Park, at the North Western tracks a mile west of Sheridan road and just south of Kenosha.

Visitors and employees of the E. J. & E. will come from all points on the line, the committee in charge announced today. Officials from Chicago and Joliet will attend. There will be games, races, entertainment and dancing, and a ball game between teams from Waukegan and Rondout. Admission will be free. The public is invited.

400 ATTEND "BLACK & WHITE" PRODUCTION SHOW AT WOODWORTH

Approximately four hundred people attended the annual "Black and White" production show, that was held at Woodworth on July 14th.

Glen Householder, Supervisor of the State Institutional Farms, classified sixty-one head of Holstein cattle that were on exhibit at the show. His ratings on the various animals received many favorable comments from an enthusiastic audience that gathered at the ringside.

Free Holstein milk was served throughout the day.

The Federal Project band, directed by Frank Haubrick, furnished music during the dinner hour and afternoon. Professor George M. Briggs, Extension Agronomist, University of Wisconsin College of Agriculture, spoke on "The Control and Eradication of Weeds." Several farmers brought weeds to him for identification.

Various contests and demonstrations were conducted by R. F. Harris, University of Wisconsin College of Agriculture, A. C. Thompson, Fieldman, Wisconsin State Dairymen's Association. (continued on page 8)

Profits and Losses

With nearly the same frequency as ever, we hear agitators suggesting that we ought to replace our system of government and economics with some other system—socialism, communism, anarchism, or what have you. These detractors have a habit, too, of referring to our present system as a "profit" system.

To use a homely simile, it would be as bad to mention ham without eggs, or bread without butter, as it would be to describe our system as simply a "profit" system. It is, instead, a "profit and loss" system.

Many persons look upon corporations as profit makers. They fail to remember that corporations have had years just like individuals do. And, like individuals, in good years they need to build up their reserves and credit to tide them over bad years. The authors of the corporation surplus tax forgot that, for although they would tax profits which go into reserves they make no allowance for the application of profits to debts. Nor do they let corporations build up reserves for inevitable rainy days without paying penalty taxes.

Statistics sometimes are boring. But in view of the fact that corporations usually are built up as profit-makers, and never loss-takers, here are some of the Treasury Department's Statistics of Income and the National Industrial Conference Board which are extremely interesting:

In 1929, which seems to be the level we now aim for, 39.8 per cent of the nation's manufacturing corporations lost money. The best year since the war was 1919, when only 23.5 per cent reported losses. In 1932, exactly 73 per cent of the nation's manufacturing corporations made no net income, and in 1934, the last year for which figures have been tabulated, the loss-takers constituted 72.7 per cent of the total.

That seems to be a real "profit and LOSS" system.

Shall We Kill the Goose?

One of the nation's leading lawmakers in a recent radio address made a rather astounding statement which indicated that he has a facility for overlooking fundamentals.

This lawmaker, advocating passage of a bill he sponsored, said that if it increased costs of production the thing to do would be just to take the increased costs out of profit. That is what is called specious reasoning—it looks all right, but that is all.

Look at it this way. Abraham Lincoln once said: "The prudent, penniless beginner in the world labors for wages for awhile, saves a surplus with which to buy

tools or land for himself, then labors for himself another while, and at length hires another new beginner to help him. That is the just, generous and prosperous system, which opens the way to all, gives hope to all, and consequent energy, and progress, and improvement of conditions to all."

What Lincoln said of an individual is, in slightly different fashion, true of the corporation. The corporation is financed by money furnished by investors. If the corporation makes more than it needs, it distributes that money to its investors who either spend it, and thus provide jobs for the persons who make the things they buy, or reinvest it, and thus provide more jobs in the same or another corporation.

Now what happens if the beginner Lincoln talked about is unable to earn a surplus? He remains forever unable to hire another beginner. The same is true of a corporation.

Government is necessary. It costs money. That money can be obtained only by taxes. The taxes can come only out of the surpluses of individuals or corporations. If we take all the surpluses in taxes; if we do away with all profits, we naturally dry up the source of government income, kill the goose that lays the golden egg, and threaten the stability of government.

The Post Office Won't "Take Sides?"

At the present time, the government is in the power business on a wide scale. It is proposed that this scale be immensely broadened in the future, with government plants operating in every section of the country.

In view of the government's action, through the post office department, in recent strikes, possible results of this are interesting and important.

The post office refused to deliver parcel post packages addressed to workers within a picketed steel plant on the grounds that it would not "take sides" in an industrial dispute. Suppose the government likewise supplied the electric power to such plants. With the mail precedent in view, could it not decline to deliver current? By supplying electricity it would enable men at work to continue at work and would be definitely "taking sides."

There is nothing far fetched in this. For the first time in our history, the post office has refused to deliver mail when it was possible to do so. Electric power is today the sole source of energy in the great bulk of industries of all kinds—without power, all operations automatically come to a stop. If the post office feels that the delivery of mail to a strike-bound plant shows prejudice in favor of one side, certainly the delivery of power would show prejudice to a far greater extent.

This little incident shows the staggering amount of control over all our lives and industries achieved by government when it controls and operates basic industries and services. Let government go far enough into business, and it will become the decisive factor in differences of all kinds, with the power to make or break any industry, any movement, any enterprise.

TREVOR

Mrs. Johu Gever was a Waukegan visitor Monday.

Mrs. Albert Weinholz and Mrs. T. Hollister were Kenosha shoppers Monday.

Mrs. Mary Smart and daughter, Mrs. Bernard Fields and children, Antioch, called at the Ed Yopp home Monday.

Mr. and Mrs. Leonard Bohrn and Mr. and Mrs. John Bohrn, Chicago, called at the William Evans home Tuesday.

Mr. and Mrs. Richard Mason, Milwaukee, spent the past week with Mrs. Mason's parents, Mr. and Mrs. Daniel Longman.

Mr. and Mrs. Gus Sebell and son, Everett, Burlington, and Charley Hanke, Slades Corners, called on their cousin, Mrs. Mattie Copper, Monday.

The annual school meeting of District No. 7 was held Monday evening with attendance of 13 voters present and one visitor. After the business meeting they elected a new director to succeed Minnie Lubeno. Mr. Keith was elected for the next three years. Myrtle Schreck, Sarah Patrick and Louise Derler were appointed as the auditing committee.

Mr. and Mrs. Holmes and children, Madison, are spending their vacation with Mrs. Holmes' parents, Mr. and Mrs. Frank Hahn.

Arthur Hartnell, Salem, was a business caller in Trevor Friday.

Mr. Kester, Salem, was a Trevor caller Thursday.

Hiram Patrick and granddaughter, Mrs. Edwin Eisenhart, Burlington, called on the Patrick families Friday.

Charlotte Hollister is spending a week with her grandmother, Mrs. Schultz at Pleasant Prairie.

Mrs. Elmer Fleming accompanied her brother and sister-in-law, Mr. and Mrs. Elmer Elfers, to Kenosha Saturday.

Mr. and Mrs. Arthur Schumacher and son, Arthur, Jr., Racine, called on the former's mother, Mrs. Ottilda Schumacher, Sunday afternoon.

Miss Doris Kenzler, Burlington, is visiting Mrs. Elmer Fleming.

Charles Curtis, Kenosha, was a Trevor caller Saturday.

Mr. and Mrs. Champ Parham, Waukegan, with their house guest, Elaine Allen, called on Mrs. Kermit Schreck and Mrs. Jessie Allen Sunday evening.

Phil Lavenduski, daughter, Lucile, cousin, Lillian Lavenduski, of North Chicago and Vernon Runyard left Saturday evening for a week's vacation to Grand View, Wis.

Mrs. Henry Ernie, daughter, Ilene, and girl friend, Chicago, returned home Sunday after spending the past week in Trevor.

Sunday visitors at the Mattie Copper home were her daughters, Mrs. William Smith and children and Mr. Park Stewart, Dousman, Wis.; Miss Pauline Copper and friend, Frank Harris, Allen Copper and friend, Chicago; Mr. and Mrs. James Cobb, daughter and husband, Mr. and Mrs. N. Nelson, Mr. and Mrs. Arthur Merkle and daughter, all from Aurora, Illinois. Kenneth remained with his grandmother for an indefinite stay.

Sunday callers at the Charley Oetting home were his brother, Henry Oetting, daughter and husband, Mr. and Mrs. Easer and children, Betty Jane and friend, Waukegan, Illinois.

Mr. and Mrs. Joseph Holly, Oak Park, spent over the week-end with the Mrs. Anna McKay family. On Sunday in company with their guests they attended the annual chicken dinner at the Holy Name church, Wilmot.

Week-end visitors at the Oetting home were their daughters, the Misses Elvira Oetting and friend, Arthur May, Madison; Adeline Oetting, Oak Park, cousins Fritz Oetting and Herman Oetting, Jr., Berwyn, Ill. Sunday afternoon Miss Elvira Oetting, brother, Louis, and Arthur May motored to Chicago, where Elvira left in the evening with her girl friend on a two weeks trip to Niagara Falls, down the Hudson River to New York, and sailing on the S. S. Dixie to New Orleans.

Mrs. Joe Fox of Brass Ball called on her sister, Mrs. John Gever, Monday.

MILLBURN

The Public Service Cooking school sponsored by the Ladies Aid Society and held in the church basement last Friday evening was attended by 150 people and the demonstration given by Miss Helen Kyle was enjoyed by all. Food prizes were won by Mrs. Podesta of Gurnee, Mrs. Cynthia Miller of Gurnee, Bernice Bauman of Millburn and Robert Knowl of Druce's Lake. Delbert Faulkner of Gurnee won an electric flat iron, Mrs. Robert McCann of Millburn and Mrs. E. A. Wells of Grand Avenue each won a waffle iron and George De Young won the grand prize, a Westinghouse electric toaster. A short program prepared by Mrs. Herriek was given and lunch was served by the executive committee of the Ladies' Aid Society. Forty-four dollars and sixty cents was realized for the church building fund from sale of tickets.

Mr. and Mrs. George Anderson, Mrs. George Findley and Mrs. William Anderson of Lake Forest and Mrs. Lizzie Stewart of Gurnee were callers at the J. H. Bonner home on Sunday.

Mr. and Mrs. Jacob Ton and Mr. and Mrs. Marcene Betts of Porter, Indiana, spent Sunday at the J. Kalui home.

Misses Katherine and Ruth Minto left Sunday by auto for Boulder, Colorado, where they will spend six weeks in school at the State University.

Mrs. Grover Linn of Chicago spent Saturday and Sunday at the E. A. Martin home.

W. D. Findley and son, Billy, were supper guests at the J. H. Bonner home Saturday.

Mr. and Mrs. E. A. Martin spent Sunday afternoon with their son, Richard in Evanston.

Mrs. George Beaumont, Mrs. Floyd Beaumont and daughters, Mary and Jane of Kansasville, Wis., Mr. and Mrs. Fred Armstrong of Bellefontaine, Ohio, Mrs. Truman Clark and Mrs.

William Lamphere of Chicago spent Wednesday afternoon at the Robert Bonner home.

Mrs. Robert Erwin and Mrs. Roy Edwards of Waukegan spent Thursday afternoon at the George Edwards home.

Lucille and Thelma Clark entertained their cousins, the Lohmeyer sisters from Indiana the past week.

The Millburn Maidens' 4-H club have postponed their entertainment indefinitely. One member, LaVergne Harkensee, who had an active part in the program, was injured in an auto accident Friday evening.

The Millburn Maidens' 4-H club held their seventh meeting at the school house Tuesday, July 13th. Clarice Minto and Phyllis Hughes gave a demonstration on "Altering and fitting a pattern." A talk on "Posture in Nature" was given by Emma Wells. Lois Bonner gave a talk on proper sleeping habits. After sewing on their garments games were enjoyed. The next meeting will be July 21.

The University of Paris was founded by King Phillip II, between the years 1140-1170. The exact date is unknown. It was a development of the Cathedral School of Notre Dame.

Blame Enemy for Sickness
The aborigines of the Darling river, New South Wales, believe that sickness is caused by an enemy who uses certain charms called the Youtnoo and Molee.

Fugitive Slave Law
Ohio had a fugitive slave law 11 years before the national fugitive slave law was passed.

SUNDAY DINNER Suggestions
By ANN PAGE

HOT weather has at least temporarily halted the rise in meat prices by reducing consumer demand. Egg prices are comparatively steady and fish is plentiful and reasonable.

The list of vegetables which are plentiful and cost little includes beans, beets, cabbage, carrots, celery, cucumbers, lettuce, peas, potatoes, squash, spinach and tomatoes.

Plums are the outstanding fruit value but new apples, apricots, various small fruits, melons and peaches are reasonable in price.

At least one hot dish is included in each of the following menus.

Low Cost Dinner
Cold Meat Loaf Creamed Potatoes
Buttered String Beans
Bread and Butter
Watermelon Cookies
Tea or Coffee Milk

Medium Cost Dinner
Broiled Chicken
Mixed Vegetable Salad
Current Jelly
Bread and Butter
Peach Ice Cream Sponge Cake
Tea or Coffee Milk

Very Special Dinner
Cold Roast Lamb Mashed Peas
Stuffed Tomato Salad
Marinated Vegetables
Hot Biscuits Butter
Gooseberry Tarts Coffee

WILMOT

The Wilmot band will play at the Silver Lake Park Wednesday evening and every two weeks on Wednesday nights for the remainder of the season. Sunday, July 25, they play at the Catholic picnic and bazaar at Spring Grove.

Mr. and Mrs. Albert Higgins and children, Kenosha; Mrs. Clarence Crowley and daughter, Antioch; Mrs. V. Maloney, Kenosha; and Mr. and Mrs. Kermit Schreck, Trevor, called Sunday on Mrs. George Higgins, who has been ill and under the care of Dr. M. Alcorn.

Mr. and Mrs. T. Kelly, Chicago, called Sunday on Mr. and Mrs. Frank Burroughs.

There will be English services at 9:30 at the Lutheran church on Sunday morning.

Mr. and Mrs. Ray Bufton and George Hyde were guests for the day Sunday of Mr. and Mrs. William Coulter at the CCC camp.

Mr. and Mrs. Frank Kruckman visited with Arthur Kruckman and Mrs. John Kruckman at Libertyville on Sunday.

Mr. and Mrs. Marlin M. Schnurr and children were in Milwaukee over the week-end.

Mrs. Ida Schnurr of West Bend is a guest for two weeks of Mr. and Mrs. Marlin M. Schnurr.

Mr. and Mrs. David Kimball, Mrs. George Faulkner and Mrs. R. C. Shottliff motored to Oak Park on Sunday for the day with Elbert Kennedy and Mr. and Mrs. Clayton Lester.

Harley Shottliff and Lorenzo Winn left Sunday for a month at Sturgeon Bay at the cherry orchards.

Mr. and Mrs. LeRoy Young, Mrs. C. Sutcliffe, Mildred Flavin and Grace Sutcliffe, of Oak Park, were guests Sunday of Mr. and Mrs. John Sutcliffe.

Sunday dinner guests of Mr. and Mrs. William Harm were Mr. and Mrs. Frank McConnell, Jr., of Elgin; Mr. and Mrs. H. Frank and daughter.

Mr. and Mrs. Fred Frank and daughter, Betty, from the Uhlman farm spent Sunday morning with Mr. and Mrs. Herman Frank. Sunday afternoon the Herman Franks visited with Mr. and Mrs. Otto Hanke.

Mrs. Fred Boulden and Mrs. Harold Boulden and children of Burlington were guests Sunday afternoon of Mr. and Mrs. Paul Ganzlin. Sunday evening the Ganzlins entertained for Mr. and Mrs. Charles Schmalfeldt and Paul and Lottie Schmalfeldt of Kansasville.

Mrs. Winn Peterson and Mr. and Mrs. Raymond Kinred of Belvidere motored to Withee over the week-end to visit Mrs. Lottie Scherf, who has been ill.

Mr. and Mrs. Harry McDougall, Mr. and Mrs. Don Herriek and Mr. and Mrs. Russell Elwood and son were dinner guests of Mrs. A. Runkel at Wheatland on Sunday.

Barbara Eileen, infant daughter of Mr. and Mrs. Alex Schubert, was baptized at the Holy Name church Monday afternoon by Rev. John Finan. Sponsors were Mr. and Mrs. Raymond Rudolph. Barbara Eileen was born on May 31.

The annual chicken dinner held at the Holy Name dining hall on Sunday was very successful and well attended, over four hundred were served.

Mr. and Mrs. Roy Ihlenfeldt, of Paddock Lake and Madison, called Sunday on Mr. and Mrs. Fred Faulkner.

Miss Honora McGuire and David and William McGuire spent the week-end at their Wilmot cottage.

Mr. and Mrs. Fred Albrecht and Mr. and Mrs. Alex Schubert and children were Sunday guests of Mr. and Mrs. Charles Clark at Richmond.

Mrs. F. Reiter, of Silver Lake, is chairman of the next card party to be held at the Holy Name hall on Wednesday afternoon, July 28.

Mrs. A. Harrison, of Portland, Oregon, called Friday on Mrs. Fred Faulkner.

Mr. and Mrs. H. Richards entertained relatives from Chicago and Milwaukee at their cottage at Wilmot on Sunday.

Mrs. Meta Jorgensen entertained the Mesdames Beales, Waldo, Swelhart, Kenosha; Miss Johnson, Kenosha; and Mrs. P. Stoen, Silver Lake, for several days at the home of Miss Anna Kronecke, last week.

Mrs. Paul Voss and daughters, Virgene and Avis, and Mrs. Clinton Voss were in Kenosha, Saturday. Sunday Mr. and Mrs. Voss entertained at dinner for Mr. and Mrs. Ralph Marzahl and family, Hebron; and Mr. and Mrs. Clinton Voss.

Donald Swadish, Kenosha, was a guest last week of Raymond Wertz. Jeanette Wertz was home from Chicago over the week-end.

Mrs. Melvin Wertz returned Monday from a week's stay with relatives in Kenosha and Racine.

Mrs. August Neumann was hostess at a card party for the benefit of the Mothers' Club at the school house Tuesday evening. Bridge and 500 were played and cake and ice cream served.

Dr. Robert A. Mullen formerly of Burlington and East Troy has returned from LaGrange and opened an office in the Burlington Bank building, at Burlington. Dr. Mullen was very successful in his practice and has many friends in this vicinity. Until he can obtain a house at Burlington Dr. and Mrs. Mullen and children are staying with Mrs. Mullen's parents, Mr. and Mrs. Martin Hoffman, and he will gladly answer all calls placed at the Hoffman home, which may be reached by telephoning Wilmot 414.

Urges Husbands to Sing in the Bath
Cincinnati, O.—What this country needs, said Dr. Thomas James Kelly, is "not more professional vocalists but a whole army of bathroom singers."

Widely known as a musical authority, Dr. Kelly spoke before the closing session of a regional conference on adult education.

America's bathing tenors need not press the issue too hard in order to indulge their artistry, he suggested, "admitting" the possibility that too often any suppression was due to "their wives and families."

"Wives should not only encourage their husbands to sing in the bathtub," declared Dr. Kelly, "but they should even bring them out into the living room singing."

Can Check on Growth of Mind
The growth of mind can be followed and checked by the advancing responses with which the mind enters into fuller possession of things.

News
ofANTIOCH and
VicinityMiss Marguerite Evans
is Bride of Earl ElfersYoung Couple Married on
Tuesday at the Wilnot
Lutheran Church

Miss Marguerite Evans, daughter of Mr. and Mrs. William Evans, became the bride of Earl Elfers, son of Mr. and Mrs. David Elfers, of Burlington, Wis., in a pretty ceremony performed Tuesday afternoon in the Lutheran church at Wilnot, Rev. S. Jedele was the officiating clergyman. The church was beautifully decorated with baskets of pink and white flowers.

The bride, who was given by her father, was beautiful in a white satin dress with veil and train. Her sister, Mrs. George Rohnow, was matron of honor. She was attired in pink silk. The bride's little nieces, Joyce and Beverly Rohnow, were flower girls. Elmer Elfers served his brother as best man, and the ushers were Charles Hawkins and Rodell Schenning.

Following the wedding a reception was given at the home of the bride's parents which was attended by near relatives of the couple, after which the couple left on a honeymoon trip. They will be at home at Rock Lake after August 1.

ANTIOCH WOMAN'S CLUB
PLANS SUMMER PARTY

Plans for a summer 'dessert-lunch-con and card party sponsored by members of the Antioch Woman's club are now under way and the big day has been set for Tuesday, August 17th.

As usual, bridge and five hundred will be played. There will be a prize for each table, a door prize and an extra gift for each person. Tickets are now on sale at the News office and can be purchased from members of the club.

MISS ROSING SURPRISED
ON BIRTHDAY

A number of friends gave Miss Hilma Rosing a grand surprise party on her birthday anniversary, Friday evening at her home at 1007 Main street. Bridge was played and prizes were awarded to Mrs. Myrus Nelson, Mrs. Herman Rosing, Mrs. Lester Nelson and Miss Grace Drom.

MISS SHERMAN CELEBRATES
BIRTHDAY ANNIVERSARY

Mrs. Lucy Himens entertained at her home in Antioch Hills, in honor of the birthday anniversary of her daughter, Bernice, Thursday evening. Twelve boys and girls were present. Bernice received many lovely gifts.

LADIES AID ENTERTAINED
AT ANDERSON HOME

Mrs. George Anderson was hostess to the members of the Methodist Ladies' Aid, Wednesday afternoon at her home north of Antioch.

MRS. BURNETTE
HOSTESS TO 500 CLUB

Mrs. S. Burnette was hostess to the members of her 500 club at her home on Lake street, Wednesday afternoon. Prizes were awarded to Mrs. Albert Morman, Mrs. Lulu Kubs, Mrs. Myrtle Stowe and Miss Mary Wilton.

AMER. LEGION AUXILIARY
TO MEET FRIDAY NIGHT

The regular meeting of the American Legion Auxiliary will be held at the home of Mrs. Wm. W. Ward at Channel Lake, Friday evening, July 23rd.

Personals

CHRISTIAN SCIENCE CHURCHES

"Life" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 18.

The Golden Text was, "Now that the dead are raised, even Moses showed at the bush, when he called the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of the living: for all live unto him" (Luke 20: 37, 38).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Verily, verily, I say unto you, The hour is coming, and now is, when the dead shall hear the voice of the Son of God; and they that hear shall live. For as the Father hath life in himself; so hath he given to the Son to have life in himself" (John 5: 25-28).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality" (p. 487).

spent Sunday in Antioch with Mr. and Mrs. Walter Baethke and family.

Mrs. Mary Smart and daughter, Mrs. Bernice Fields and children were callers at the home of Mrs. Ed Yopp at Trevor, Monday.

Make your plans now! Tickets are out! Get yours! For what? The annual big card party in St. Peter's Hall Thursday afternoon, August 12.

Misses Lois and Dorothy Hunter of Chicago spent Sunday with their parents, Mr. and Mrs. Wilbur Hunter.

Misses Katherine and Ruth Minto, daughters of Mr. and Mrs. D. H. Minto, left this week for Boulder, Colorado, where they will attend the State University for six weeks.

Mrs. Henry Hunter, who has spent the past three months with her daughter, Mrs. H. F. Wagner at Cleveland, Ohio, returned home Monday. Mrs. Wagner and son, Herbert, Jr., came with her to spend two weeks.

Mr. and Mrs. William Curtis of Muskegon, Michigan, are guests of Mrs. Elberta Straghan this week.

Mrs. C. N. Torell of Chicago, accompanied by Mrs. C. Hanson of Chicago spent Thursday at the home of her daughter, Mrs. E. B. Millar. Ronald Millar returned to Chicago with his grandmother for a week's vacation.

Mrs. M. Shawn who has been the guest of her sister, Mrs. Otto Klass and family for the past month, left this week for Denver, Colorado, where she will make her future home.

Mrs. N. E. Sibley, Mrs. B. R. Burke, Misses Belle Hughes, Mary and Deedie Tiffany attended a bridge-luncheon at the home of Mrs. A. W. Dubs, in Waukegan, Thursday.

Mrs. W. F. Zeigler was hostess to the members of her bridge club on Tuesday.

Miss Anna Campbell and mother, Mrs. D. D. Campbell returned home Sunday from a vacation trip in Wisconsin.

Miss Enid Sheen and friend, Miss Delia Able of Waukegan spent Sunday and Monday with Enid's grandmother, Mrs. Ellen Van Duzer. Mrs. Laura Klecka of Lake Geneva called Monday and the girls accompanied her home for a few days' visit.

Lyle Van Duzer of Kenosha was the guest of his mother, Mrs. Ellen Van Duzer, Sunday.

Mrs. R. Leuschner and Mrs. Thomas Russell of Mundelein, sisters of Mrs. Joseph Panowski, were guests at the Panowski home Thursday.

SHORT DANCE FROCK

By CHERIE NICHOLAS

When the new short-length dance frock first made its appearance it created quite a sensation. However, it did not take long for it to become a general favorite. The dress pictured is of lovely printed silk chiffon. It accents the slender waistline such as fashion demands—a return to the silhouettes of the long ago. The gown was worn by a prominent society debutante at "The Silk Parade to Waltz Time," a benefit affair recently taking place in New York.

Lanvin Jackets Are Made
of Silver or Gold Kid

Silver or gold kid is used over and over again for evening at Lanvin where flowing robes are trimmed with oriental applications of leather. At the same house are separate jackets entirely of stitched kid which is so soft and fine that it looks like lacquered satin.

LACE FOR SUMMER
BRIDE NEW STYLE

By CHERIE NICHOLAS

The June bride will be fashionably attired this season when she chooses lace for her gowns. With the present vogue for lace for daytime wear, for evening gowns, and for the highly popular house coats and delicate negligees, the romantic appeal of this material makes it a favorite for wedding gowns and bridesmaids' dresses.

Cut on classic lines, the beautiful lace patterns of this season allow for exquisite details of workmanship for the bridal gown. One lovely gown seen recently is perfectly simple in line but has fine details of applied seamings at the point below the hips where the slight fullness starts. The very full train, and the skirt and neck edges likewise, have an applied scalloped edge of lace. This intricate treatment shows to advantage particularly as the veil is quite short and does not fall to the train. In general these lace wedding gowns have shorter veils so that their delicate patterns are not obscured.

Wedding Parties Dressed
All in Lace Is Fashion

Wedding parties dressed entirely in lace are in the fashion picture this year. One of the best we have seen is of all-white peau d'ange in a Chantilly pattern for the bride. There were no seams to the dress, avoiding any unnecessary line that might interfere with the beautiful pattern of the lace, and the edges throughout were entirely hand-applied. A matching mantilla head-dress was worn with this wedding gown.

The wedding party, all in lace, made a charming and appropriate setting for the bride. The bridesmaids' dresses were of novelty all-over lace, in pastel shades. The headresses, in contrast with the mantilla of the bride, were formed like a hood, from the collar at the back.

TEXAS RANGERS PLAY ANTIOCH BOOSTERS TONIGHT

The Antioch Boosters face a tough assignment tonight when they play the Texas Rangers, one of the leading soft ball teams in America. Following the regulation game will come the comedy session—the Goat Ball Game. In this game, all players, batters included are tied to goats with 5-ft.

ropes. After hitting the ball, either player takes goat to base or goat takes player elsewhere.

The game is said to be more fun than a circus—and beside that the Rangers are bringing along their feature goat performer, known as "Handle-Bar Hank!"

The games will be played at Naber Field at nine o'clock. And just to make things lively in that part of town Vanderburg's Trained Wild Animal circus is holding forth next door to the ball lot with their evening performance starting at eight o'clock. What fun, what fun!

Poison in Berries and Leaves
of Some Garden Plants

According to a Home Gardening expert, many common plants contain dangerous poisons, warns a writer in Pearson's London Weekly.

There is deadly prussic acid in leaves and roots of arum lilies, in hawthorn berries, and in the leaves of the cherry laurel. Another acidic poison, oxalic acid, is contained in the berries of the barberry species.

The poisonous cytisine is found in butcher's broom berries, and in laburnum seeds, while Christmas roses are dangerous on account of the helleborin in them. Every part of the common daisy, and the sticky juice of the dandelion stem, are also poisonous.

Digitalin, a deadly drug, is contained in foxglove leaves, while holly berries hold several poisons. People are also warned against the ivy berries, which are full of hederin. Lupin seeds contain lupinine, and the berries of Daphne, daphniphyllin. The entire monkshood plant is impregnated with aconitine, and poppy heads are full of morphine, the chief narcotic agent in opium. Finally, the yew is dangerous on account of its taxine content. Taxine is a poison which causes suffocation.

Cheese Wizardry

Cheeses, every epicure recognizes, rely for their distinctive flavors on a fungus called penicillium. Its function is to create the mold without which most cheeses would be distastefully anaemic. Included in its family group are innumerable sub-varieties, each with a singular characteristic. Those famous Roquefort caves in France, where millions of cheeses ripen annually, are infested with Penicillium Roqueforti, and its presence accounts for this local industry's world-wide reputation, according to London Tit-Bits Magazine.

England's Rose Names

Rose names in England include three kings, thirteen queens, ten princes, nineteen princesses, eleven dukes, and seventeen duchesses.

Chamois Leather from Sheepskin
There is no chamois in chamois leather. It is made from the flesh side of sheepskin.

Art of Wood Engraving
Besides the term wood engraving for that art there is the modern term, xylography, adapted from the Greek.

FARM TOPICS

GRASS FLAVOR IN MILK UNNECESSARY

Keep Cows From Any Greens Few Hours Is Advised.

By Dr. O. F. Garrett, Instructor in Dairy Manufacture, New Jersey College of Agriculture, WNU Service.

Nothing puts that desirable "June" flavor in milk quite so successfully as tender green grass, but in order to avoid the undesirable odor and flavor which nearly always occurs when cows are first turned on pasture, it is necessary to observe caution in the pasturing practice.

Research workers at the California and Oklahoma Agricultural Experiment stations have shown that if cows are kept away from roughages, especially green roughages, at least five hours before milking very little of the "feed" flavor will be evident in the milk. This same procedure can be applied to pasturing practices. The cows can be turned on pasture immediately after the morning milking but they should be removed to a dry lot or barn at least five hours before the next milking.

If this practice is followed for the first two or three weeks in the spring, there will be very little of the undesirable grass odor and flavor in the milk. This practice will even eliminate most of the wild garlic or onion flavor if these plants are found in the pasture. At the same time the cows will have enough time to consume the necessary quantity of grass to supply their needs.

To get the very finest flavor in milk during the pasture season, it is suggested that this procedure be followed throughout the entire time.

Forcing Breeding Hens By Increasing Protein

Forcing breeding hens by increasing the amount of protein in the ration may be done with no ill effects if an abundance of green feed is supplied. Recent experiments conducted at the Oklahoma agricultural experiment station show that the mortality of the breeders fed green feed was not increased by forcing, observes a writer in Successful Farming. Green feed protects the hatching qualities of eggs produced by forced breeders. Rations with a protein content as high as 28 per cent may be fed without injury to the hatchability of eggs if sprouted oats, alfalfa meal, or some other green feed is fed each day. Where forcing is done by increasing the protein in the feed and using lights, the use of green feed is especially important to maintain good advances in the total egg production.

Road Study Casts Light on Auto Tire Punctures

London.—An exhaustive inquiry into the causes and cures of automobile tire punctures has just been concluded in Great Britain by 1,000 roads patrols.

The investigation, confined largely to the main roads of the country, was organized by the Automobile association after it had received many complaints that modern methods of road surfacing, combined with the higher braking power and quicker acceleration possessed by cars, shorten the life of the best tires by several thousand miles.

An analysis of the return shows that three-quarters of the punctures that came under the notice of the observers were in the rear tires, and that of the number two-thirds were in tires on the near side rear wheel. The explanation was simple. Any loose material on a roadway is scattered by passing cars to the edge of the highway, and the small flints and stone dressing lie there ready to embed themselves in the tires of the cars that follow.

The rear tires, being on the driving wheels, are more prone to suffer first; and the near side tires are those which come into contact with the most generous share of sharp points. The remedy suggested by an A. A. official is more careful road surfacing and systematic road cleansing, with more attention to the sides.

Injured Dog Saved by Plastic Surgery

Boston.—Spot, a hound of uncertain ancestry but of friendly disposition, had its face lifted and is ready for release from Angell Animal hospital here.

Spot suffered a fractured skull, lost an ear, and suffered a scalp injury during an encounter with an express train. Plastic surgery came to the dog's aid when it seemed as if a policeman's revolver might put an end to its suffering.

The pup's scalp was put back into place and a new ear built up from folds of skin. The lacerated muzzle was rearranged expertly, and the fractured skull treated appropriately.

Contrasts the Old and the New

Broadwayites are nearly all automobile fans and anything out of the ordinary along the "Row" interests them greatly. Recently one of the first Hudsons built, a 1909 model, was placed on exhibition beside the 1937 cars, on the floor of Hudson's big Broadway salesroom. Theatrical folk from all along the famous Avenue tried the contrast of sitting in the seat of what was one of the snappiest cars of its day and the latest model with its finger tip gearshift. Miss

Gracie Barrie, featured singer of the Broadway production the "Show is On", is shown here at the wheel of both cars, the old and the new. She was most intrigued by the difference in equipment and the methods of control. The 1909 car had no windshield or top. Its kerosene lamps copied the horse and buggy style and it is a far cry from the external gearshift lever to the new selective automatic shift which is controlled by the flick of a finger.

Tip of Nose Is Center of Balance, Writer Says

The center of all balance is in the end of the nose.

By balance I mean physical, psychic, spiritual—all three, observes a writer in the New York Sun. The nose is a most despised feature in Occidentals, and yet there is no other organ so quick to register like and dislike, no other with such a tenacious memory, no other more indicative of character. "Count noses" is a very elementary way of arriving at a decision. A ring in a bull's nose, or even a stick without even a goad, will tame the wildest animal. A skater, a ballet dancer, a skier, an army man, all know this fact instinctively. The ideal nose combines both the eagle and the hound. Too straight a nose, without a saving humorous tip, means fanaticism, too aquiline a nose means a grasping nature, too upturned a frivolous one.

A psychically disturbed person, one who is always and more and more in a hurry, who goes in great Catherine wheels over the universe till he is dizzy, can be checked by concentrating on the end of his own nose.

Try it and see. It polarizes and concentrates the nervous energy. It gives one a sense of the lode star, as the bow of a boat always swings with the tide, but comes back to balance, the arrow flies straight, the man bows to his Maker.

Selah!

As It Should Be
Manly nobleness, womanly tenderness, childlike trust, these are among the host of natural affections and generous enthusiasms.

NEIGHBORS AND FELLOW CITIZENS:

One of the reasons for our difficulties, socially and politically, is the fact that we don't protect our good governmental officials after we elect them.

Electing them to office is only the preliminary—we should stand by them afterward so they can do their job as our servants well.

AND, while you are thinking about the above idea, remember that R. H. Stripe is selling Life, Fire and Automobile insurance, and he will give you free, important advice on insurance matters.

R. H. STRIPE Waukegan, Ill.

The Tree Fish

Among the strange creatures in Australia is the mudskipper. It swims, walks on land—why it even climbs trees. The fish, found in rivers of Northern Queensland, are generally about 10 inches long. A real freak of nature, they have lungs in addition to gills. Their thick front fins are about the shape and size of frogs' legs. On these they walk. A mudskipper usually goes ashore pursued by a crab, its mortal enemy. To escape, it ascends the roots of a mangrove tree, many of which grow near the shore. Thus it gets another name, "mangrove fish."

Isaac Watts, Hymn Writer
Isaac Watts, the hymn writer, was born at Southampton in 1674. From 1698 to 1701 he was a tutor in the family of Sir John Hartopp. He became minister of the independent church at Mark Lane, London, 1702, resigning in 1712 because of ill health. Watts was a popular writer and his theological works were numerous. His treatise on "Logic" became well known, but his reputation rests chiefly upon his hymns. He died in 1748.

Gold Most Malleable
Gold is the most malleable of all metals and the minimum thickness to which it can be beaten with patience and skill is not known for certain. A single grain of gold has been beaten into a leaf having an area of seventy-five square inches. Commercial goldleaf ranges in thickness from 200,000 to 250,000 leaves to the inch.

Biblical Land of Goshen

The location of the biblical land of Goshen cannot be positively identified, but it lay somewhere on the eastern border of Egypt. The Egypt on our maps, however, is not the Egypt of the Pharaohs. Ancient Egypt consisted only of the Nile valley, the Fayum and the Delta—a long narrow strip of land watered each year by the inundations of the Nile river. The land of Goshen was located somewhere between the Delta and the Isthmus of Suez, not in ancient Egypt proper, though it was under the jurisdiction of the Pharaohs.

Meaning of Bumps Around Ears
Grouped round the back of the ears are the bumps relating to possession, aggression and impatience. Immediately above and around the ear is a bump which, if well-formed, means that the sifter is quick to seize opportunities, says a phrenologist in London Answers Magazine. But if it is too highly developed, he is impatient and can be harsh and revengeful if thwarted.

The Belgian Congo
Although politically the Belgian Congo is a dependency of Belgium, it is really just the opposite. Eighty times larger than Belgium, it supplies the mother country with all its coffee, gold, copper, tin, diamonds. It is one of the world's few sources of pitchblende from which comes radium. In the heart of "darkest Africa," Belgian Congo is far from dark.

Bump of Firmness

Firm-willed, obstinate folks have a very well-formed bump high up on the crown of the head. In some cases, says a phrenologist in London Answers Magazine, a highly developed bump of firmness means that its owner will gain success through sheer determination and persistence; in others it may mean that there is unreasonable persistence and obstinacy. But unless you have quite a pronounced bump here you have no will of your own. Just behind this is the bump of self-esteem. Moderation, as you can guess, is very necessary with a bump of this nature. You need just an average-sized bump here.

Italians Play the Numbers

People are lottery minded everywhere and play the numbers by hunch and chance. In Italy, no pious person dreams of the Madonna without rushing out at once to play her numbers, 6, 8 and 15.

Hints to Gardeners

by Gordon Morrison
Vegetable Expert
Ferry Seed Institute

Make Summer Plantings

MANY gardeners believe that most planting should be done in the spring or early summer. Vegetables thus are ready for the table in late summer and fall, according to the length of time required for maturing.

For vegetables maturing fairly rapidly, however, midsummer is as desirable a time for planting as spring. With a second planting of the fast-growing garden items, there is fresh food for the table well into the fall, and vegetables to be stored are more crisp and in better condition to be kept over a period of several months.

In fact, Chinese or Celery Cabbage must not be planted before midsummer. If planted too soon it forms a useless plant with leaves much like mustard or turnip and soon produces a seed stalk instead of a head.

Radish, Spinach, Early Cabbage, Beans, Sweet Corn and Beets are excellent crops for mid-summer planting. Turnips and Rutabaga also thrive when planted in July.

Gardeners sometimes have the feeling that the warm, dry summer months are not suitable for germination and sprouting of seed. Drouthy conditions may easily be overcome in the garden. When ready to plant, form the drill and fill it with water. When excess water has drained away, leaving the soil moderately moist, the seeds may be planted and covered as usual.

In some cases, mid-summer planting is actually better than spring planting, for the crop is finer when it matures in the cool, moist fall, rather than in the warm, dry summer. Spring planting is important, of course, to provide fresh vegetables throughout the summer. But none need miss the joy of tasty fresh vegetables in September, October and November.

Hints to Gardeners

by Gilbert Bentley
Flower Expert
Ferry Seed Institute

Avoid "Forlorn" Gardens

A GARDEN loses its charm when it is neglected. A little attention at strategic times during the summer will keep your garden out of the "forlorn" class.

A bit of "tidying" is necessary with bulb flowers that have bloomed and drooped. If bulbs are to be left in the ground, remove the unsightly past prime stalks leaving just enough stub so the bulbs can be located in the fall. If it is desired to remove the bulbs entirely, store them until fall in a dark, dry place.

The beauty of the garden scene is enhanced, of course, if annuals are grown in the space left unused by removal or clipping of bulb flowers.

It is advised also to clip the tops of early-blooming perennials when they have begun to wilt. This is a good move not only because it keeps the garden neater, but because there is a chance of procuring a second bloom from some flowers if the first is just past its prime. This applies particularly to Delphinium, Sweet William, Perennial Dianthus and Pyrethrum.

In almost all cases, annuals bloom more abundantly if they are picked regularly. Continuation of bloom adds much, of course, to the charm of the garden; and if one picks regularly he can keep the plants free of dead foliage.

Later in the season the gardener may wish to keep annuals well picked to prevent reseeding. In certain localities certain annuals tend to mature seed, drop it, and produce an unwanted profusion of seedlings the following spring. The gardener should ascertain which annuals are likely to reseed in his territory. It will be desirable in the fall, when perennials have lost their beauty as foliage, to cut them to the ground.

Throughout the summer, regular weeding will be necessary, naturally. The last stroke of the season, in maintaining a good-looking garden, is to mulch perennials and bulbs neatly, after the ground has frozen solidly.

Coil of Snakes

The rattlesnake is typical of the snakes that coil before striking. As soon as it is alarmed, it throws its body into a coil, with head raised a little above the rest of the body. When ready to spring, the muscles of the upper part of the snake are suddenly contracted, so as to straighten the body abruptly and thrust the head forward in a direct line. As the upper part of the body only is employed, the snake never strikes at a greater distance than one-third to one-half its length.

Bread Industry Huge

The average adult American eats more than five slices of bread each day. To supply this demand 30,000 American bakeries bake a billion loaves of bread a month.

Congressman Church Host To Scouts At Jamboree

The above 115 Boy Scouts and officers, while attending the Jamboree at Washington, D. C., were guests of Congressman Ralph E. Church of the Tenth Illinois District at luncheon in

the House Restaurant. They were addressed briefly by the Speaker, Hon. William B. Bankhead, and Congressman Church.

Mr. Church also made special ar-

rangements whereby the group visited the crypt in the basement immediately below the Capitol Dome, where Congress by joint resolution on December 23, 1799, provided for the resting

place of President George Washington. The crypt remains vacant because Washington, in his will, expressed a desire to be buried in the vineyard at Mount Vernon.

Education must be deep before it can be broad.

Name for Sense of Touch
Another name for the sense of touch is called the tactile sense.

Siam's Religion
Buddhism is the prevailing religion in the kingdom of Siam.

Mr. and Mrs. Otto Ilsen, Sr., of Algonquin and Mr. and Mrs. Louis Milling and children of Chicago visited Saturday evening at Hugo Gussarson's.

Miss Harriet La Cross of Chicago spent Thursday and Friday with her friend, Mrs. Will Thompson.

Mr. and Mrs. Roy Webb and daughter, Dorothy, of Waukegan called at the H. A. Tillotson home Sunday afternoon. Other callers were Mr. and Mrs. Ray Bishop and Eloise of Kenosha.

George Robbins of Valdez, Alaska, visited his sister, Mrs. J. Pickles, at the Will Thompson home from Thursday until Saturday evening.

Mr. and Mrs. Ward Edwards of Belleville, Illinois, spent the first part of last week at Bert Edwards'.

Mrs. A. T. Savage, Joe Smith and sons, Albert and Milton, attended the WLS Barn Dance show at the Genevieve Theatre in Waukegan, Thursday.

Mr. and Mrs. Spencer Howe of Russell called at the John Crawford home Sunday evening.

Mr. and Mrs. George Olson of Waukegan visited the Max Irving home Sunday afternoon.

Mrs. Julia LaCross and daughters, Sue and Harriet, of Chicago called at Will Thompson's Sunday evening on their way to Lauderdale Lake, Wis., where they will spend the next four weeks.

Several families from here attended the Farmers' Picnic at Diamond Lake Wednesday.

Miss Ruthie Gussarson is visiting her aunt in Woodale this week. She spent last week with relatives in Chicago.

Mr. and Mrs. George Harner and Junior and Shirley of Waukegan called at W. D. Thompson's Wednesday evening.

Mr. and Mrs. A. T. Savage visited Miss Dorothy Webb of Kenosha at the Girls' Camp at Pleasant Lake, Wis., on Sunday afternoon.

Henry and Wilbur Hunter were Waukegan callers Monday of this week.

Miss Charlotte Cantwell of Chicago is visiting her friend, Hazel Fields, for several weeks.

Mr. and Mrs. Robert Robbins of Chicago called at the Wilbur Hunter, Will Thompson and Harrie Tillotson homes Saturday afternoon.

The Misses Lois and Dorothy Hunter of Chicago were home Sunday.

Mr. and Mrs. Nels Gussarson and family of Chicago spent Sunday with the Hugo Gussarson family.

Artesian Wells

Artesian wells are the ones in which the water rises above the point at which it is encountered. If the rise is enough to cause the water to flow over the top of the pipe a flowing well is the result. All flowing wells are artesian but not all artesian wells are flowing wells. Artesian water is usually good water although it is apt to be rather hard. Water from deep wells, unless they happen to be in limestone, is as pure as any ground water can be. Pure water is a relative term for all ground water naturally contains some foreign material which it has picked up in its passage through the soil and earth formations.

First Supreme Court Session

First session of the United States Supreme court was held in the Royal Exchange in New York, Feb. 1, 1790, with three of the six justices present.

Use of Word "Call"
According to the dictionary, the correct prepositions to use with the verb call are as follows: "Call to a passer-by; call after one who is departing or fleeing; call on or upon a friend, or at his house; call on or upon one for aid or service; call upon the country for troops; he is called by the name of Lincoln, after the great emancipator; his integrity has never been called in question."—Literary Digest.

**PUBLIC SERVICE COMPANY
OF NORTHERN ILLINOIS**

Yesterdays

Forty-two Years Ago

The Reno Novelty Company will give an exhibition in Antioch this Thursday evening, which was billed to appear here last Thursday, but was postponed on account of the storm. This company has given a number of exhibitions near this place recently and are highly spoken of by those who attended their show. The sleight-of-hand performance of Professor Reno is said to be very fine and the show throughout has given very general satisfaction. Attend it and judge for yourself. Admission price is only 20c.

Saturday afternoon the three o'clock train arrived in two sections, to accommodate the rush of people to the lakes. All of the buses were loaded and as a result the resorts were filled to overflowing Sunday.

A Huge Success

The benefit dancing party, given at Albert Hermann's dance hall, last Saturday evening, for the benefit of Ernest Johnson, the young man who had his hand blown to pieces by a giant fire cracker on July 4th, was attended by about one hundred and sixty couples, and a most enjoyable time was had by all. The sum of \$112.75 was realized by the sale of tickets, after paying for the music, and this amount was given to Ernest on Sunday morning by Robert Selter, in behalf of the friends who had worked for the success of the party. Ernest was so overcome by the unexpected gift that he could not find words to express his thanks, but wishes The News to thank his friends, one and all, for the gift and hopes that none may ever have need of a benefit party for such a trouble as his. The gift is timely and will give Ernest much-needed money for the expense brought about by the accident.

Mr. and Mrs. Westphal, of Chicago, were guests of Mr. and Mrs. N. Petersen, a few days last week.

L. B. Grice was in Waukegan, Monday.

The regular prayer meeting is held at the Methodist Church every Thursday evening, led by the pastor. All are invited to this service who are interested, whether members of the church or not. Subject this week, "Fellowship."

There will be fireworks and a raffle at Selter's Sportsmen's home, Sunday evening next, for the benefit of Ernest Johnson. All are invited.

THIRTY YEARS AGO

Lewis Burke has returned home. The drought in this locality is ceasing after the past two weeks with relatives in Chicago.

Fire supposed to have started from the efforts of small boys to smoke cigarettes or cigars destroyed a stack of straw on the farm of Louis Grabel, one mile south of Wadsworth on Monday. It was only by the united efforts of the neighboring farmers and the citizens of the village that a large barn, then filled with new hay was saved. The barn escaped unscathed by the prompt work of the volunteers.

Mr. and Mrs. L. L. Rinear and daughter, of Fond du Lac, Wis., visited over Sunday with their parents, Mr. and Mrs. Will Rinear of this place.

TEN YEARS AGO

Paving operations on Lake street have been completed and work was begun this week on Victoria street. Payment of the additional cost for cement to construct a strip of what is known as controlled concrete was made by the Antioch Oil Station, in order that a strip of paving half of the width of the street and extending from the warehouse to the corner might be opened to traffic Saturday. The rest of the street will be opened early in August.

Mrs. Barney Trieger attended the meeting of the Eastern Star at Millburn Tuesday evening. The occasion was guest evening and Mrs. Trieger, who was the guest of Mrs. H. E. Jameson, filed the station of Martha.

A very pleasant house party was held over the week-end at the home of Mr. and Mrs. S. J. Strahan on North avenue. Those present were Mr. and Mrs. William Quinn of Waukegan, Mrs. E. C. Hoskins and daughters, Luella and Harriet of Chicago, and Robert Fry of Marengo.

Mr. and Mrs. W. H. Osmond and Mr. and Mrs. John L. Horan and family drove to Chicago Sunday to give the Horan children a day's outing at Lincoln Park.

Mr. and Mrs. L. O. Bright and daughter, Marjorie, returned Monday evening from Fossiland, Illinois. Mrs. Bright and Marjorie have been visiting relatives there for the past month and Mr. Bright joined them there two weeks ago.

Dr. and Mrs. E. J. Lutterman visited with relatives of Mrs. Lutterman at Lake Geneva Sunday.

Robert Selter returned Wednesday after a week's vacation trip to West Baden, Indiana.

Most Popular Dress Model
The most popular dress model ever produced in Paris was "La Garconne," designed by Premet a number of years ago. Not only were a thousand originals sold by the designer, says Collier's Weekly, but more than a million copies were made and retailed by fashion plates.

People and Spots in the Late News

DEMOCRATIC "HARMONY" FEST on secluded Jefferson Island in Chesapeake Bay, off Annapolis, Md. President Roosevelt is shown here chatting with a group of Congressmen during the week-end frolic of House and Senate Democrats. Postmaster General Farley is on the left and Representative O'Neill of New Jersey on the right.

FIRST AMERICAN to be honored by 274-year old Laval University, oldest French College in America, Gov. Richard W. Leche of Louisiana, is shown here receiving degree of Doctor of Laws, Cardinal Villeneuve, Archbishop of Quebec and Primate of Canada, officiated at the ceremonies during Second Congress of French Languages in Quebec.

ORPHANS OF THE SPANISH STORM ... Brought from civil war-torn Spain and the ever-present peril of air raids, these youthful Spanish refugees are landed in England from Bilbao. 4,000 children already evacuated will remain in England for the duration of the war.

BEACH FASHIONS are going juvenile, as witness this romper suit of pin dotted pink chambray trimmed with big white bone buttons, worn by a smart summer vacationist on the beach at Miami.

FROM DISTANT INDIA ... Only animal known to science to react similarly to a human to infantile paralysis virus, this rhesus monkey is brought from far off India to aid in the fight against the dread disease. He is shown receiving an injection at the laboratories of the Infantile Paralysis Commission of the Long Island College of Medicine, where the research is carried on with funds raised by the Birthday Ball for President Roosevelt under direction of Col. Henry L. Doherty, national chairman.

TOPS IN TENNIS

... Don Budge, Californian, picked by sports writers for almost certain victory for the U.S. in coming Davis Cup Matches. Budge already has tucked three Wimbledon titles under his belt. He is looked upon to provide the stiffest competition for the foreign participants.

LAKE VILLA

Mrs. G. Swanson spent the past week with the Carl Sorenson family at Tomahawk, Wis. Mr. and Mrs. Swanson came down last week to attend their brother's funeral and Mrs. Swanson returned home with them.

Mr. and Mrs. Oscar Douglas and children, Russell and Mary Ellen, visited friends and relatives at Waukegan and South Milwaukee from Friday until Monday.

Mrs. Helen Ward of Lake City, Florida, and her sister, Mrs. Margaret Burgett and two daughters, Mildred and Katherine of Hebron, Ill., were guests of Mr. and Mrs. C. B. Hamlin last Thursday. Mrs. Ward and Mrs.

Burgett will be remembered as Helen and Margaret MacLean who formerly lived here.

Mr. and Mrs. W. G. Hucker and mother, Mrs. Bertha Schappeler returned home late last week from Chetek, Wis., where they have been enjoying a vacation at their cottage there.

Mrs. E. Ames, George Fredericks, Miss Madge Fredericks and Mrs. Arthur Greenwood of Libertyville visited Monday afternoon at the C. B. Hamlin and P. R. Avery homes.

The local Royal Neighbor camp will sponsor a public card party at the Village hall on Wednesday afternoon, July 28th, and on Friday afternoon, July 29th, when you play 500, buncos, bridge or pinochle, you will be sure to have a good time and perhaps win a nice prize, too.

Lawrence Thayer and Miss Laura Murrie were guests of Mrs. Louisa Thayer on Sunday and enjoyed an auto trip to Silver Lake.

Mrs. Louisa Thayer was a Waukegan visitor last Tuesday.

August Kratz returned to his home Sunday after a two weeks' vacation in Chicago visiting his aunt.

Mrs. Orville Talbott of Chicago and Miss Catherine Philippi of Colby, Wis., spent the past week with Mrs. Vera Philippi. Mrs. Talbott returned to her home in Chicago Sunday with her husband and sons, but Miss Philippi remained for a longer stay.

Miss Alice Riordan visited her friend, Dorothy Bradley, in Chicago a few days recently before going to Megaunee, Michigan, to spend a week with her aunt, Mrs. Milmackey. On

Navajo Craft Designs Used in Super Chief

The New Stainless Steel Super Chief of the Santa Fe, with its sweeping, streamline design. Lower left—The dining car of the new train is unusually large, its specially designed interior, with silver and china in modernized reproduction of Indian craft, is shown here. Lower right—The colorful observation lounge, in which desert colors of sand, copper and turquoise have been used for decoration, with sand paintings and reproductions of Navajo craft and weaving.

FROM the Navajos of the picturesque southwest, the Santa Fe drew the inspiration for the design of its new stainless steel streamline train, the Super Chief, newest of the luxury trains in the west.

The rich colors associated with the country through which the train travels have been used as the background for decorations, faithfully reproducing the art and craft of the Navajo Indians. Sand paintings, silver craft and weaving have been skillfully combined with rare woods and modern design to give the train

all the beauty and color of the desert. The train was built by Edward G. Budd Manufacturing Company of Philadelphia. The locomotive was furnished by the Electro-Motive Corporation of Chicago.

Throughout the train, each compartment has its own color scheme and arrangement, and each has been designed so that suites may be formed by use of connecting doors. In the cocktail and observation lounges has been preserved much of the beauty of Navajo life. Sand paintings have been used in the pier

panels to illustrate the characters which occur in the story of Dolly 'Noyant, the "Myth of the Mountain Chant." All of the figures are executed in native colored sands and charcoal.

Coverings are reproductions of rare Navajo museum pieces, and lighting fixtures have been adapted from the fourth painting of Dolly 'Noyant. The "Plumed Arrows" have been fashioned into glow lights and a rear table lamp employs the sacrificial knife stem for a base with its shade fashioned of goat skin.

her return to Chicago, Miss Bradley returned with Miss Riordan to her home for a few days visit.

The deep well for the water system for the village is being drilled and work is progressing nicely.

Mrs. Mina Gilbert of Waukegan is visiting her daughter, Mrs. Horace Culver, for a few days.

Mr. and Mrs. Ben Cribb were the honored guests at a party given last Thursday evening at Deep Lake at the home of Mrs. Cribb's aunt. The evening was very pleasantly spent in playing cards and in social conversation and in enjoying the bounteous lunch prepared for the guests. A good number of friends were present and Mr. and Mrs. Cribb were presented with a beautiful floor lamp as a remembrance.

Miss Jean Perry of Antioch spent Monday with Miss Veneita Philippi.

Rev. Allen was a guest at the Herbert Nelson home at Monaville last Sunday afternoon.

Mrs. L. C. Hamlin and sons spent Tuesday with Mrs. Hamlin's mother, Mrs. A. Nauta, in Waukegan.

Mrs. Ira Bailey and daughter accompanied her parents, Mr. and Mrs. Carl Seeger on a trip to Beloit, Wis., last Sunday and spent the day with friends there.

Mr. and Mrs. Fritz Wagner who have been living in Waukegan, have moved to Lake Villa and are getting nicely settled in the front flat over the Van Buren sales room.

Penicillium Magic Word of Famous Cheese Tastes

For many years science has been seeking to discover the secret of the flavor of the most famous cheeses—what it is, aside from different names, that makes Camembert, Brie, Stilton and Roquefort individual. According to J. Ramsbottom, of the Natural History Museum of London, much of the secret lies in one word: "Penicillium."

"Molds of the groups known by this name," Ramsbottom said, "play an important part in the ripening of all these cheeses."

Penicillium, though unfamiliar even as a name to the layman, although in American dictionaries, is a group of some 600 members, which shares with one other kind of fungus the responsibility for most of the common "molds" of fruit, leather, and many other materials. "Penicillium roqueforti" ripens cheeses of the Roquefort, Gorgonzola, Stilton type. It is, par excellence, the maker of green cheese, and its special virtue is that it can live and thrive in cheese cracks where the supply of oxygen is very small.

A Skytop Republic

Bolivia is known as the skytop republic of South America. With no outlet to the sea, it is reached from Mendoza, Peru, and Arica and Antofagasta, Chile. Chief among the country's attractions are Lake Titicaca, highest navigable lake in the world; La Paz, the capital, and two towns called Sucre and Potosi. The latter was a fabulously wealthy city long before the Mayflower landed its settlers in North America. Lake Titicaca's interest to visitors lies largely in the peculiar beauty of its mirrorlike, rush-fringed waters, in the Indian villages surrounding it, and in nearby ruins of cities belonging to the Tiahuanaco civilization, which antedated even that of the Inca empire. La Paz, the world's highest capital, is notable for its spectacular setting 12,000 feet above sea level, in an amphitheater of crinkled, rust colored rocks and mountains; for its attractive old Spanish churches, with their almost constantly ringing campanile bells.

What's New in Radio?

By J. F. Witkowski

Principal, School of Radio, International Correspondence Schools; Associate Member, Institute of Radio Engineers

THE police department of Evanston, Illinois, has acquired an ambulance equipped with a two-way, short-wave radio for use in accident cases. The radio makes it possible to send on ahead to the doctors at the hospital a description of the patient's injuries, enabling them to make any special arrangements. Physicians at the hospital can transmit to the ambulance instructions for any special first-aid treatment that may be required.

Plans are being made to employ the radio in the study of meteorological conditions in the hurricane belt of the Caribbean. To obtain data on atmospheric pressure, humidity and temperature in the storm area, observation instruments and small radio transmitters will be hung from balloons to be released in the path of the storm. The balloons will be capable of reaching a height 15 miles above the earth.

A pocket radio with a loud speaker has been invented by a Danish engineer. The set is small enough to be carried in a man's pocket or a woman's handbag, and is said to be capable of picking up any European station. Commercial production of the miniature radio has been started at Copenhagen.

New Miracles Of The Photoelectric Cell

By James D. Purdy
Director, Schools of Electrical Engineering, International Correspondence Schools

ASTRONOMERS at the Washburn Observatory, Wisconsin, are testing the use of a photoelectric cell as an automatic guider for the observatory's giant telescope, thus relieving them of the onerous task of keeping the telescope trained on a particular star during the hours required to take a photograph. The light of the guide star is divided into two beams of equal brightness which are directed onto the light-sensitive surface of the photoelectric cell. If the telescope swerves in any degree from the proper position one beam becomes brighter than the other. This variation in brightness resulting in an electric pressure in the cell, starts a motor which swings the telescope back into position.

A photoelectric cell device has been developed for use at dangerous highway intersections and curves to check motorists who drive at excessive speeds. Two "electric eyes," set half a mile apart and connected with an automatic timer, measure the speed at which the car is traveling. If the speed is excessive the device flashes a signal ahead of the driver, warning him to slow down before the intersection or curve is reached.

LEGAL

NOTICE FOR BIDS

Sealed bids will be received by the City Council of the City of Waukegan, Illinois, at the regular adjourned meeting of the City Council, Monday, July 26 A. D. 1937, until 8 o'clock P. M. (Daylight saving time) at the Council Chambers, 106 N. Utica St., Waukegan, for the purchase and installation of three (3) automatic coal stokers, same to be installed in the following municipal buildings:

1. Central Fire & Police Station
2. South Side Fire Station
3. City Yards Building

Said stokers shall conform to the specifications of the said City, copies of which specifications are on file in the office of the City Clerk and may be obtained on application to the City Clerk.

It shall be understood by the bidders that an award of contract may be made on that bid or combination of bids which may be deemed by the Council to be most advantageous to the City. It shall be further understood that separate awards may be made on each of the locations above specified.

The Council reserves the right to reject any and all bids.

As an evidence of good faith, each bid shall be accompanied by cash or a cashier's check made payable to the order of the City Clerk of the City of Waukegan in the amount of ten per cent (10%) of his bid price, which check shall be signed by the cashier of some responsible bank to secure said City against any loss occasioned by failure of the bidder to abide by and comply with the terms of his bid. Each bidder, by making a bid for this equipment, signifies his intention and good faith to enter into a contract with the City of Waukegan in accordance with the specifications, should he be awarded the bid.

Signed Frank G. Wallin
City Clerk.

GRAYSLAKE TRIMS
ANTIOCH ACES, 8-4Locals to Play All-Nations
at North Chicago
Sunday

Pitcher Edwards of Grayslake fanned 13 Antioch hitters and allowed only five hits to win 8 to 4 on the Grayslake grounds last Sunday.

Next Sunday the Aces will journey to North Chicago for a return game with Doc King's All-Nations colored team. This will be the deciding game of a three game series, each team having won a game earlier in the season.

Pepper Used as Money

Pepper was so highly esteemed in Europe in the Middle Ages that taxes and tributes were often paid in this commodity. Thus, in the siege of Rome by Alaric, the King of the Goths, the city's ransom was 5,000 pounds of gold, 30,000 pounds of silver and 3,000 pounds of pepper.

AIR SERVICE OVER
ATLANTIC PLANNEDBritain Gathers Data to Plot
Flying Charts.

London, England.—At Foynes, on the River Shannon in Ireland, imaginary flights are made daily over the Atlantic, in preparation for regular air service to America, the air ministry has revealed.

Meteorological experts of the air ministry and Imperial Airways plot a "flight" in accord with reports of wind strength and direction and other weather information received by radio from ships and transferred immediately to "synoptic" charts that give a general picture of the weather over the 2,000 miles between Ireland and Newfoundland.

The experiments were begun in London, but when they reached an advanced stage they were transferred to Foynes, near which are the land and sea bases from which the Imperial and Pan-American planes will operate across the Atlantic.

Accepted Theories Erroneous.

The work has shown that generally accepted beliefs about Atlantic weather must be radically revised. Provalent, for example, is the theory of a constant west to east wind, making all flights from Europe to America difficult and dangerous. This is generally true, but the weather men have discovered that there are many days when conditions favor rather than hamper the westward flight.

On a day in last December, for example, the wind was blowing so strongly from the east all the way across the ocean that a flight to America could have been made in record time.

In addition to constant weather information received from transatlantic steamers the Foynes station has a weather expert journeying back and forth constantly across the north Atlantic on board the steamer Manchester. Port His duty is to discover all he can about prevailing air currents and conditions in the upper air. His work will be continued for a year.

Looses Small Balloons.

He releases small colored balloons of hydrogen, which rise at the rate of 500 feet a minute to the limit of visibility, which is about 10,000 feet. Variations of their course show the direction and strength of winds affecting them.

After lightning calculations and comparisons with weather reports received by radio from other ships this data is flashed to Foynes. Upper air temperatures also are taken to combat the problem of ice formation on the planes.

The work has thrown into prominence the need for a meteorological station between the British isles and Greenland, to cover a zone which few ships visit and where no trustworthy source of information exists.

The goal of these efforts is the establishment of an organization capable of handling the commander of a transatlantic air liner, before he takes off, a complete, dependable analysis of weather then prevailing and likely to prevail for the duration of his flight across the ocean.

Experimental flights by special transatlantic land planes, sea planes and the Mayo "composite," or "piggy-back," ships will be carried out during the next few months. Informed British aviation opinion, however, believes that regular air-mail flights will not be begun until some time in 1938 and that passenger schedules will not be possible before 1939 or 1940.

Auto Mechanic Is Awarded

Title of Baron by Court

San Jose, Calif.—Ernest Siber, twenty-four-year-old auto mechanic has demonstrated that while the Constitution prevents any foreign country from conferring a title of nobility on an American citizen, there is nothing to prevent an American court from doing so.

As a consequence, Siber is now Baron Ernest H. Von Schanenflugel. Siber explained his desire and predicament to the Superior court about the title as follows:

His father, Harold Siber, is chief engineer at the San Jose hospital. His grandfather, however, who died in Germany a number of years ago, was authentically Baron von Schanenflugel.

However, as the latter name was entirely too much for the average American to pronounce, his father had his name changed to "Siber."

The son, however, desirous of preserving his grandfather's name and the title, asked the court to restore him the family title, name and all, regardless of the difficulties of pronunciation, and the court complied.

Old Settlers Remember

How Two Men Won Strike

Rapid City, S. D.—An outmoded street car, exhibited in a park here, calls to mind among old settlers one of the most unusual strikes in the state's history. The old street car company here owned one car, a horse drawn vehicle. It was operated by two men. They formed a union. The management objected. And so the men struck. They demanded union recognition and no reduction in salary. Their salary was 75 cents a day. The strikers were victorious.

Sat in Archbishop's Lap.

Few people are aware of the distinction between the archbishop of Canterbury as "Primate of all England," and the archbishop of York as "Primate of England," and fewer still are aware of the occasion for it, says M. V. Hughes in "London at Home." In 1176 there was a big quarrel between the two archbishops as to which should be chief. At the synod, sat "as in his place, Richard of Canterbury, when in springs Roger of York, and finding Canterbury so fairly seated, sits him down in Canterbury's lap. Canterbury's servants plucked him thence and buffeted him to some purpose." This unseemly quarrel led to Canterbury receiving the title of "Primate of all England," while poor York had to be contented with being "Primate of England."

Ages Counted in Winters

Indians told their age in moons, but Norwegian vikings told theirs in winters, historians say.

Rumsey, the Great Inventor
James Rumsey, soldier and mechanic, who made steam propel a boat 150 years ago, was born on Bohemia Manor, near Warwick, Md., in March, 1743. A century and a half ago, on December 3, 1787, he publicly demonstrated a workable steamboat on the Potomac river at Shepherdstown, W. Va. Robert Fulton, who is credited with making the steamboat a commercial success, submitted his first plans a year after Rumsey's death on December 21, 1792. At that time, both Rumsey and Fulton were in London and apparently were intimate friends. Rumsey had gone to England to perfect his invention but died of apoplexy on the eve of the demonstration of his largest boat, the Columbian Maid.

Colorado's High Peaks

There are more than 30 peaks in Colorado which exceed an elevation of 14,000 feet.

Heart Beats and Fear

Many people believe that when they get scared their hearts beat faster and faster. The truth is that the action of the glands, particularly the adrenals, during fright is such as to cause a slight initial speeding up of the heart when first scared, and this is followed almost immediately by a slowing up of the heartbeats and then the beating becomes stronger—but not faster, declares a writer in Pearson's London Weekly. People mistake the pounding of their hearts for speed. These strong beats raise the blood pressure, pump sugar to the muscles, cause fatigue to be banished and prepare the body for defending itself. The heartbeats are stronger but not much faster.

Arch Bridges Old

Arch bridges date back beyond the Christian era. The oldest arch, at Nippur, was built about 4000 B. C. by the Assyrians. The Pont du Gard, at Nîmes, France, was erected by the Romans in 15 B. C. This three-span arch bridge carried an aqueduct which brought spring water from the hills to the baths of Nemausus. It was 880 feet long and 160 feet high. The original London bridge was built over the Thames some time between the years 1000 and 1200. It consisted of 20 stone arches, and on it were built houses and shops. Although it was in almost constant need of repair, it managed to last until less than 100 years ago.

Leopards Love to Fight

Leopards are the slyest and most ferocious of the big cats, but they are too light of weight to be a serious threat to their cousins, the lions and tigers. Their one great quality is a love of fighting.

This Butter Grows

Butter from a tree sounds ridiculous, but there is such a commodity. The tree from which it is obtained is the butter tree of West Africa. The produce is Shea butter, a finer product than the best animal butter, says London Answers Magazine.

In South America, Nature goes one better, for the "milk tree" supplies the natives of Cordillera with a white liquid closely resembling cow's milk. When stored in bowls it thickens, and the top, when skimmed, tastes like good cream. The milk is fed to children and used in tea. Curiously enough, the tree is found only in barren areas and can be "milked" only during periods when little else will grow. The "milk" is obtained by puncturing the trunk and catching the sap as it slowly oozes out.

Score and Underscore

To score a passage means to underline it, as by drawing the pen through the passage thus to be canceled. To underscore a passage means to underline a passage, as by drawing a pen under the words thus to be indicated—Literary Digest

Money to Loan

Marks of Past Illness

Shown by Hair and Nails

Signs of past illness often remain long after the illness has ended. These are to be found where the circulation is poorest, viz., in the hair and the nails, says a writer in Pearson's London Weekly.

After a severe illness, you will often find that a ridge appears running across the nail and growing with it, advancing towards the free end as the nail gets longer. This is due to the fact that the illness has absorbed a good deal of the patient's strength and the circulation, in consequence, has not been sufficient to nourish the nails properly.

When anyone gets run down in general health, the nails frequently suffer in other ways, especially if the condition is a chronic one. They may become brittle and crack easily, while sometimes they are pitted with small holes as though they had been worm-eaten.

To restore the appearance of the nails you must, of course, first restore the general health. The principal cause of the debility must be treated, and when this has been done improvement in the circulation follows. As soon as the nails begin again to get proper nourishment they quickly regain their healthy look.
